

 NARCISSISTIC PERSONALITY DISORDER**KOMAL RAZA**

Punjab Medical College Faisalabad.

The image corresponds to the perfect depiction of one of the most talked about condition related to personality, narcissistic personality disorder, wherein the physical health, appearance and self worth is all intact but ability to appreciate differences along with process of recognition of other's respect and ways to relating to others decline. The condition literally leaves the suffering person void of objective view and keeps the person imprisoned in self reflection.
